

Energy Production, Trading & Brokerage

The industry's most intuitive and flexible interface

GO STRAIGHT TO YOUR MARKET OVERVIEW

Every energy market has its own home page where you have an overview and the ability to start investigating in more detail.

Simple menus enable you to go straight to a particular market.

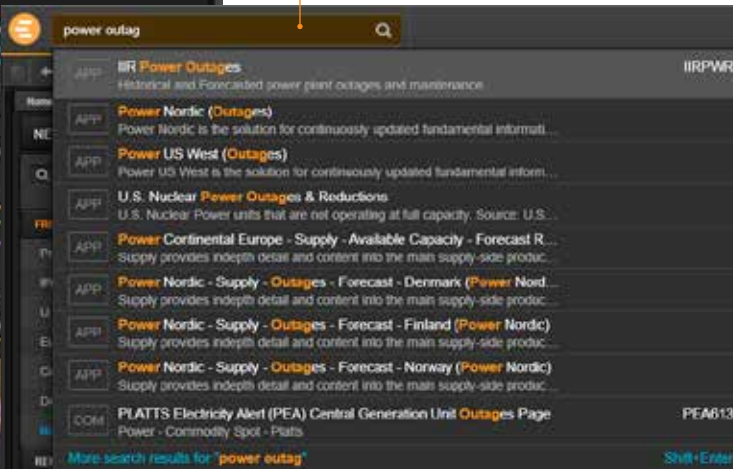

FIND THE INFORMATION YOU NEED, WHEN YOU NEED IT

With autosuggest and intuitive natural-language search, you have fast and intelligent access to data, analytics and functionality.

STAY IN TOUCH WHEN YOU ARE AWAY FROM YOUR OFFICE

Work on your desktop, at home, or on a mobile device using all the same lists and news searches. Save a session on your desktop and start from the same point when you work on your laptop – and vice versa.

Type what you are looking for. Eikon will make intelligent suggestions as you go.

NEVER MISS OUT
Make sure you don't miss out on vital new apps and content. Click on the What's New icon at the top right of your Eikon screen, or type WHAT'S NEW and navigate to the COMMODITIES section.

Click to see what's new.

Act before the market moves, with breaking news from Reuters

SEE THE NEWS AHEAD OF YOUR COMPETITORS

Reuters has over 230 seasoned commodity journalists with unique access to informal information sources. That means we can bring you the market-moving exclusives that you need to see first.

Wherever there is production, processing or consumption, we have specialist journalists on the ground to give you the inside track.

Thomson Reuters has a long history in these regions and an unrivalled reputation for independence. We have earned trust – we can uncover insights and bring you them in advance of the competition.

So in regions where transparency is still an issue, you get more information and more clarity.

Our global news service also provides political and macroeconomic news that impacts commodity prices.

ALWAYS READY TO ACT

Set up alerts to stay ahead with the breaking news and other key events that affect your business.

Easily navigate to other relevant news, including company news, plus political and macroeconomic news.

As well as alerts on news items, you can set up alerts on a whole range of information, such as economic events and status changes on vessels, ports and oil refineries.

Choose the most convenient ways of receiving each alert.

Find trusted insights in a complex world

LESS COMPLEXITY, MORE CONTEXT

Go further than the news – our industry-respected columnists provide independent forward-looking commentary and detailed technical analysis of the energy markets.

Whether it's a quick reaction to a new development or a fuller article that unpicks the complexity of major trends, the observations are supported by price data, analytics and graphics – to give you deeper insight and context.

Specialist columnists provide informed commentary and analysis on each of the main commodities markets.

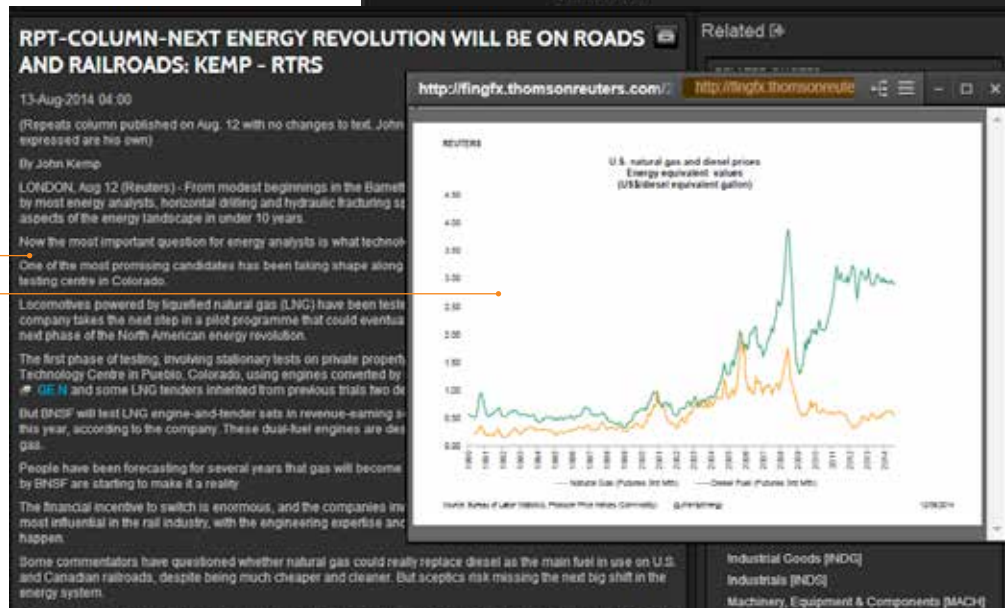

The screenshot displays the Thomson Reuters Eikon interface. The main article, 'WHY RAILROADS ARE TAKING A FRESH LOOK AT NATURAL GAS: KEMP', is dated 13-Aug-2014 13:25. It features a photo of a train and text by John Kemp, a Reuters market analyst. The article discusses the industry's experimentation with natural gas-fueled trains and the regulatory and supply chain challenges. A related column, 'RPT-COLUMN-NEXT ENERGY REVOLUTION WILL BE ON ROADS AND RAILROADS: KEMP - RTRS', is also visible, dated 13-Aug-2014 04:00. The interface includes a navigation menu on the left, a main content area with text and images, and a right-hand sidebar with related news and market data.

Observations are backed with direct references to company data, technical analysis and other supporting information.

DAILY NEWSLETTERS

Our daily newsletters, delivered via email, summarize what drove the markets overnight and spotlight the key factors to watch in the day ahead.

Just search for NEWSLETTERS to set up delivery.

Sharpen your foresight with our Research & Forecasts

FORWARD-LOOKING ENERGY ANALYSIS

View rigorous analysis of power, gas and carbon markets globally from Point Carbon. As well as daily reports and forecasts, you can easily access supply & demand fundamentals, and detailed breakdowns of weather data.

- Carbon Europe
- Carbon North America
- Carbon China
- Carbon South Korea
- Carbon New Zealand
- Power Nordic
- Power Continental Europe
- Power UK
- Power Turkey
- Power US North West
- Power Brazil
- Natural Gas UK
- Natural Gas Continental Europe
- Natural Gas North America
- Natural Gas Brazil
- Global LNG

QUANTIFY THE IMPACT OF EVENTS ON POWER CONTRACTS

Power Curve gives you real-time fundamental fair value assessments of the power market, right down to the specific contract.

Power Curve is also available as an app on Apple devices.

View analysis over different periods.

Drill down to specific countries or regions.

Select a contract.

Drill down into the hourly estimates that form the basis of the contract.

Navigate immediately to different analysis, supply & demand details and weather.

Select an event to determine its impact.

See residual demand.

Sharpen your foresight with our Research & Forecasts (continued)

SEE INDEPENDENT ASSESSMENTS OF OIL FLOWS

Flow assessments from our specialist analysts provide a rational and independent view of aggregated supply between regions – both historical and forecast.

You can also see the physical flows clearly on the Interactive Map, along with other factors affecting supply.

UNDERSTAND THE EFFECT OF SCHEDULED AND UNSCHEDULED OUTAGES AT REFINERIES

If a refinery shuts down or goes into partial operation, you need to know immediately. With exclusive Genscape and IIR data as well as our own editorial assessments, you can investigate in detail and at speed.

You can receive automatic alerts on all outages, scheduled and unscheduled. Eikon also tells you why an outage has happened, how it affects capacity and when operations are likely to resume.

Easy navigation to other regions.

Focus on supply and demand in specific sub-regions.

Download data directly into Microsoft Excel.

Compare capacity and availability of further supply.

Search for specific refineries, outages, companies, and more.

Instantly view the affected resources on the Interactive Map.

Quickly visualize and analyze the status of assets

IDENTIFY AND ANALYZE RISKS QUICKLY

Use the Thomson Reuters Interactive Map to see the key factors that affect the supply chain and impact prices.

View extraction, power-station and refinery outages, vessel movements, weather events and other factors.

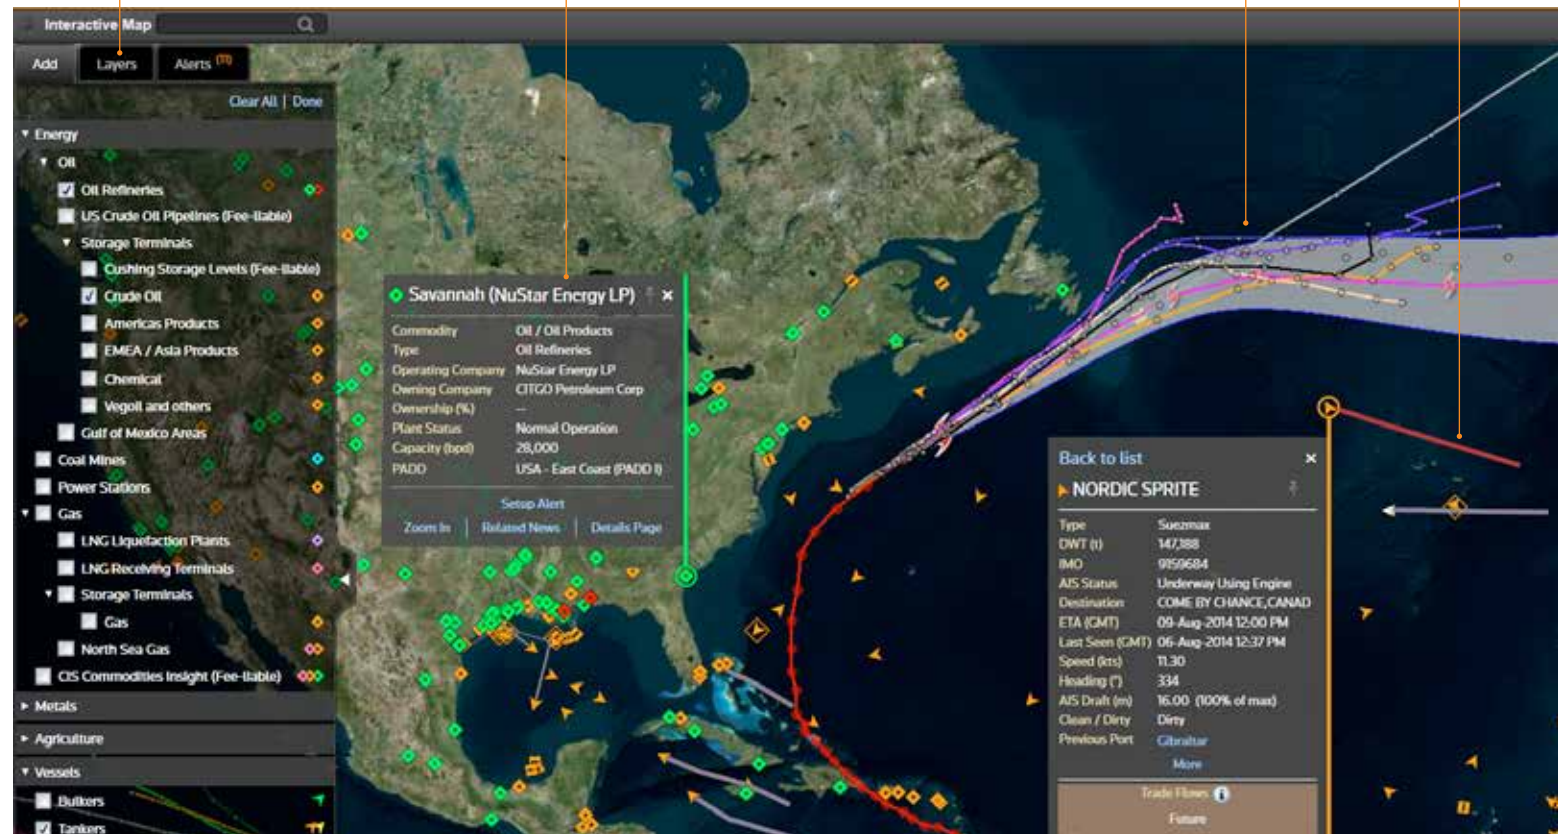

Drill down into a geographical area to understand the local dynamics and the impact of an actual or projected event.

No need for clutter – use the Layers tab to give you exact control over the assets displayed.

View details of a specific asset or vessel and drill down to see more.

Track hurricanes in detail and view projected paths from a range of trusted models.

Track specific vessels.

Reduce the time spent integrating and normalizing fundamental data

ALL THE DATA YOU NEED, IN ONE PLACE

You don't want to spend your time collecting and integrating data from various sources, then correcting the errors.

Eikon provides a consolidated set of current and historical fundamental data from Thomson Reuters and the industry's preferred specialists – including Platts, Argus, Genscape, IIR, Global Coal, PIERS and Tank Terminal.

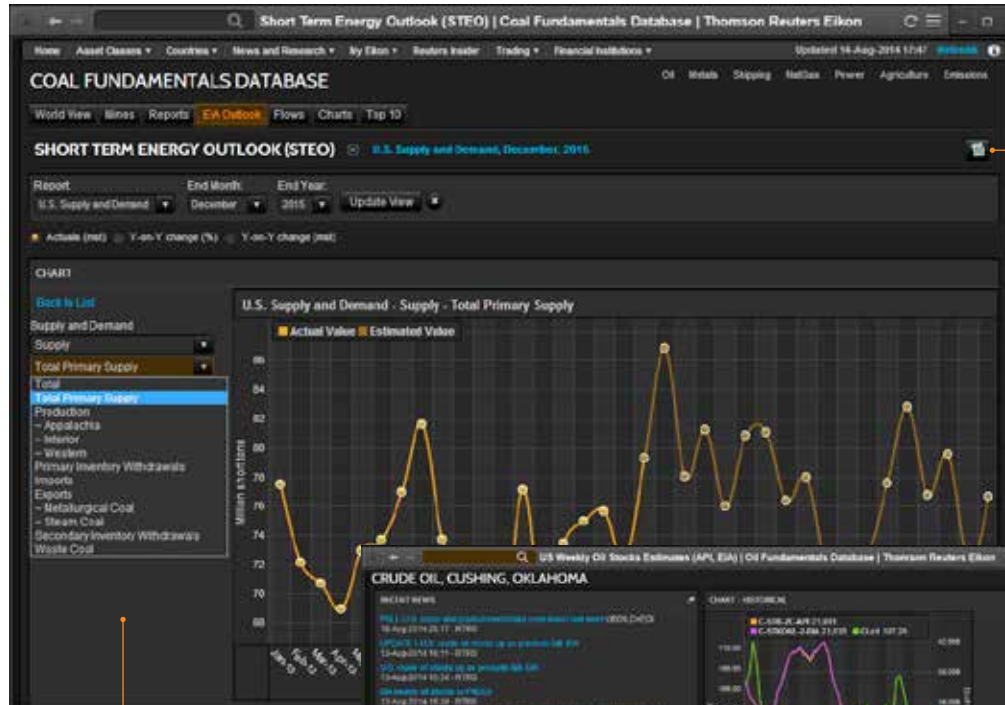

All data is standardized and normalized. You can make meaningful comparisons right away.

Separate databases focus on each key market:

- Power
- Carbon
- Coal
- Oil
- Natural Gas

You can export data to Excel or use the Eikon API to plug data directly into your own applications.

For easy access, search for FUNDAMENTALS or look for the link in the Home Page of your chosen market.

One click loads all the data into Microsoft Excel.

Clear presentation means you instantly see the key values and can make meaningful comparisons.

Easy ways of changing the details viewed.

Analytical tools that reveal opportunities

SEE KEY VALUES INSTANTLY

Our calculators are purpose-built for professionals in the Energy markets.

They have been designed to enable you to see key calculated values with the minimum of fuss – and the ability to easily change parameters and see the result.

View the data as a table or chart.

Quickly select your market and instruments.

Use the Energy Spreads Calculator to compare term structures, for example.

VISUALIZE AND UNDERSTAND

Charts are clear, easy-to-use displays that enable you to quickly visualize, adjust and compare data to reveal opportunities.

If you want to see a chart for virtually anything displayed, simply right-click on it and select **Related > Chart** or **Related > Technical Analysis Chart**.

It's easy to set up and adjust technical analysis.

If you want to change a parameter or the units displayed (for example), just hover the mouse over the item to see what is available.

Accurate weather forecasts you can use right away

DIRECT ACCESS TO DATA AND METEOROLOGICAL EXPERTISE

View historical and real-time raw weather data, as well as forecasts of impact on prices in various energy markets.

Our weather models are based on data from the most respected global models, such as the ECMWF and GFS, as well as local models (such as DWD and HIRLAM) for regional short-term forecasts. We interpolate and adjust the raw data on temperature, precipitation, cloud cover, etc to create refined forecasts for each area of interest.

You can also view different layers of weather on Interactive Map.

See forecast and actuals.

Drag the slider to view forecast weather at specific points in the future.

Drill down to view cloud coverage, precipitation, wind, etc.

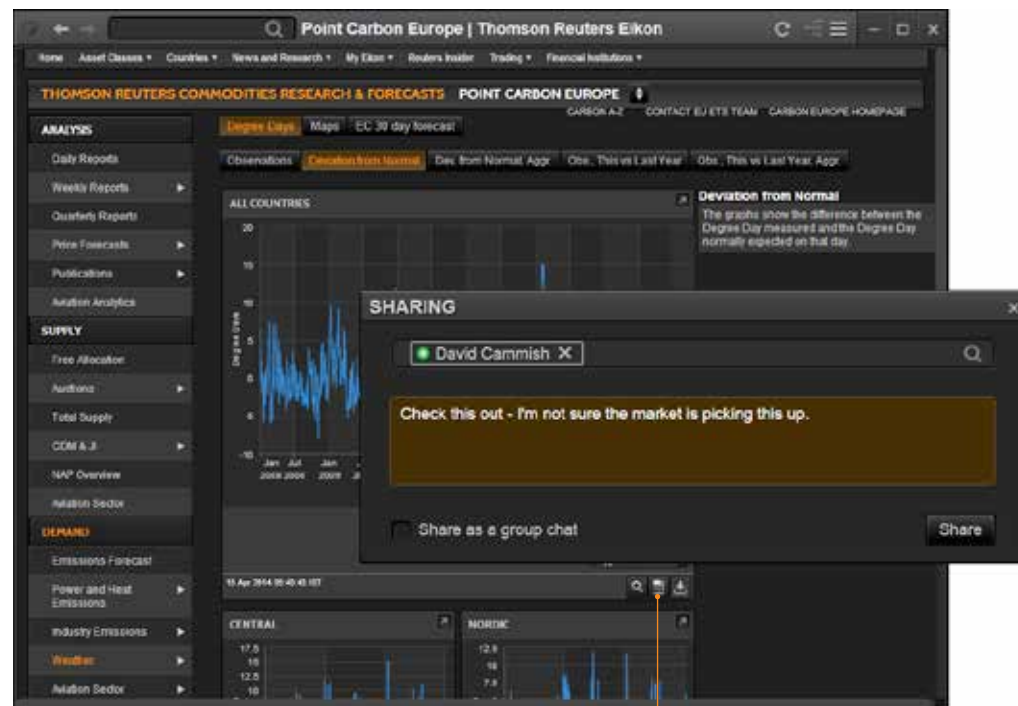

TRACK WEATHER QUICKLY AND EASILY
Find instantly updated weather forecasts and weather-based models in one place.
Search for FORECAST EXPRESS.

Collaborate more effectively with customers and colleagues

SHARE VALUABLE REAL-TIME CONTENT QUICKLY AND EASILY

Thomson Reuters Eikon Messenger gives you instant communications with more than 210,000 financial professionals across different messaging platforms.

You can share real-time content including quote lists, calculators, charts and news with colleagues and customers.

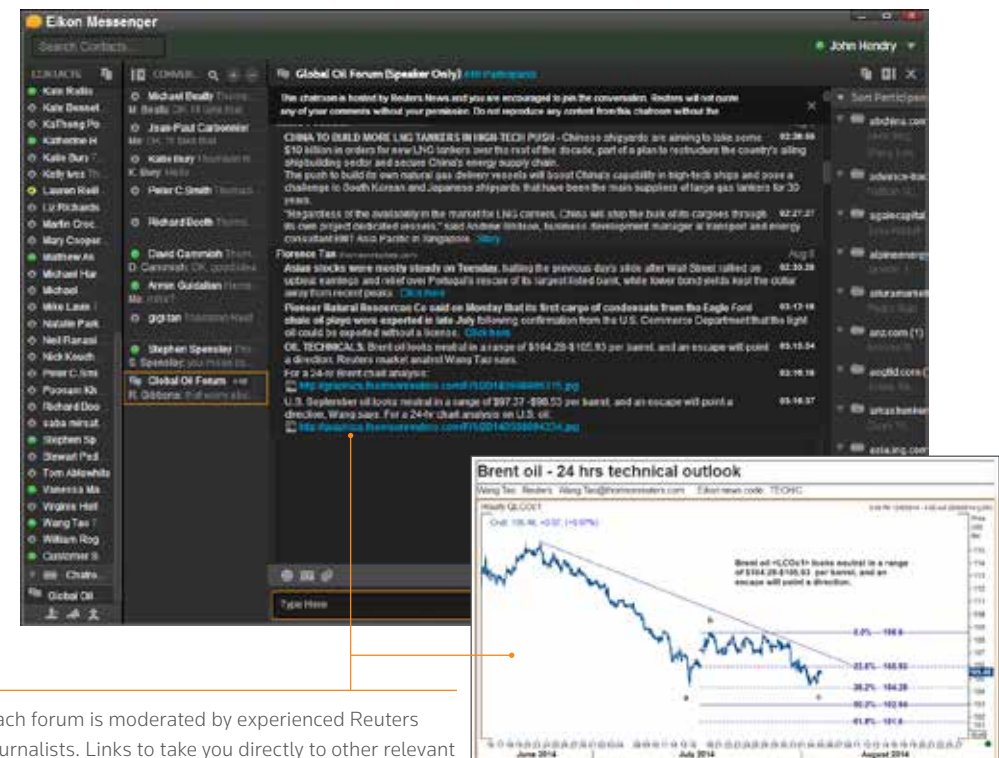

Send via Eikon Messenger or e-mail.

JOIN THE DISCUSSION

Vital information is often relayed via informal channels. Our global and regional energy forums enable you to interact with peers and industry thought leaders. These are invitation-only news forums and discussion rooms covering key trends and market issues.

Reuters News specialist editors moderate the forums and combine the top stories and commentary with real-time discussions and interviews with expert guests.

- Global Oil Forum
- European Power, Nat Gas, Coal and Carbon Forum
- North American Power, Nat Gas, Coal and Carbon Forum

Each forum is moderated by experienced Reuters journalists. Links to take you directly to other relevant content to give you depth of understanding.
